The screenshot shows the Twilio console interface. At the top, there's a navigation bar with the Twilio logo, 'CONSOLE', 'DOCS', and the user's name 'Kaviya R'. Below the navigation bar is a large illustration of a person in a red and white polka-dot shirt jumping over a hurdle. The main heading reads 'Ahoy Kaviya R, welcome to Twilio!'. Below this, a subheading says 'Tell us a bit about yourself so we can personalize your experience. You will have access to all Twilio products.' There is a form field with the placeholder text 'Which Twilio product are you here to use?'. At the bottom of the page, there's a system tray showing the weather as '20°C Partly cloudy', a taskbar with various application icons, and a status bar with 'ENG IN', a signal icon, and the date '06:31 AM 18-11-2022'.

The screenshot shows the Twilio SendGrid 'Send your first emails' setup page. The page has a sidebar on the left with links to 'Dashboard', 'Email API', 'Marketing', 'Design Library', 'SMS', 'Activity', 'Support Center', and 'Settings'. The main content area is titled 'Send your first emails with Twilio SendGrid'. It includes a section 'Create a sender identity' with the text 'Before sending email, you'll need to create a sender identity. There are two ways to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.' Below this text are two buttons: 'Create a Single Sender' and 'Authenticate a domain instead'. To the right of the buttons is a diagram showing a 'Your Business' box connected to a 'Your Sender Identity' box. Below the diagram is a 'Send your first email' section with a green checkmark and the text 'Please create a sender identity before sending your first email.' At the bottom of the page, there's a system tray showing the weather as '20°C Partly cloudy', a taskbar with various application icons, and a status bar with 'ENG IN', a signal icon, and the date '06:31 AM 18-11-2022'.
